## FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report on Form 10-Q may be considered “forward-looking statements” as that term is defined in the Private Securities Litigation Reform Act of 1995. The forward-looking statements contained herein are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by any such forward-looking statements. Forward-looking statements include information concerning our future financial performance, business strategy, projected plans and objectives. These statements may be identified by the fact that they do not relate to historical or current facts and may use words such as “believes,” “expects,” “anticipates,” “will,” “should,” “could,” “may,” “would,” “intends,” “projects,” “estimates,” “plans,” “forecasts,” “guidance,” and similar words, expressions or phrases. The following important factors and assumptions could affect our future results and could cause actual results to differ materially from those expressed in such forward-looking statements. These factors include, but are not limited to:

- the high level of competition in the mobility industry, including from new companies or technology, and the impact such competition may have on pricing and rental volume;
- a change in our fleet costs, including as a result of a change in the cost of new vehicles, resulting from inflation or otherwise, manufacturer recalls, disruption in the supply of new vehicles, including due to labor actions or otherwise, shortages in semiconductors used in new vehicle production, and/or a change in the price at which we dispose of used vehicles either in the used vehicle market or under repurchase or guaranteed depreciation programs;
- the results of operations or financial condition of the manufacturers of our vehicles, which could impact their ability to perform their payment obligations under our agreements with them, including repurchase and/or guaranteed depreciation arrangements, and/or their willingness or ability to make vehicles available to us or the mobility industry as a whole on commercially reasonable terms or at all;
- levels of and volatility in travel demand, including future volatility in airline passenger traffic;
- a deterioration in economic conditions, resulting in a recession or otherwise, particularly during our peak season or in key market segments;
- an occurrence or threat of terrorism, pandemic diseases such as COVID-19, natural disasters, military conflicts, including the ongoing military conflicts in the Middle East and Eastern Europe, or civil unrest in the locations in which we operate, and the potential effects of sanctions on the world economy and markets and/or international trade;
- any substantial changes in the cost or supply of fuel, vehicle parts, energy, labor or other resources on which we depend to operate our business, including as a result of a global pandemic such as COVID-19, inflation, the ongoing military conflicts in the Middle East and Eastern Europe, and any embargoes on oil sales imposed on or by the Russian government;
- our ability to successfully implement or achieve our business plans and strategies, achieve and maintain cost savings and adapt our business to changes in mobility;
- political, economic or commercial instability in the countries in which we operate, and our ability to conform to multiple and conflicting laws or regulations in those countries;
- the performance of the used vehicle market from time to time, including our ability to dispose of vehicles in the used vehicle market on attractive terms;
- our dependence on third-party distribution channels, third-party suppliers of other services and co-marketing arrangements with third parties;
- risks related to completed or future acquisitions or investments that we may pursue, including the incurrence of incremental indebtedness to help fund such transactions and our ability to promptly and

effectively integrate any acquired businesses or capitalize on joint ventures, partnerships and other investments;

- our ability to utilize derivative instruments, and the impact of derivative instruments we utilize, which can be affected by fluctuations in interest rates, fuel prices and exchange rates, changes in government regulations and other factors;
- our exposure to uninsured or unpaid claims in excess of historical levels and our ability to obtain insurance at desired levels and the cost of that insurance;
- risks associated with litigation or governmental or regulatory inquiries, or any failure or inability to comply with laws, regulations or contractual obligations or any changes in laws, regulations or contractual obligations, including with respect to personally identifiable information and consumer privacy, labor and employment, and tax;
- risks related to protecting the integrity of, and preventing unauthorized access to, our information technology systems or those of our third-party vendors, licensees, dealers, independent operators and independent contractors, and protecting the confidential information of our employees and customers against security breaches, including physical or cybersecurity breaches, attacks, or other disruptions, compliance with privacy and data protection regulation, and the effects of any potential increase in cyberattacks on the world economy and markets and/or international trade;
- any impact on us from the actions of our third-party vendors, licensees, dealers, independent operators and independent contractors and/or disputes that may arise out of our agreements with such parties;
- any major disruptions in our communication networks or information systems;
- risks related to tax obligations and the effect of future changes in tax laws and accounting standards;
- risks related to our indebtedness, including our substantial outstanding debt obligations, recent and future interest rate increases, which increase our financing costs, downgrades by rating agencies and our ability to incur substantially more debt;
- our ability to obtain financing for our global operations, including the funding of our vehicle fleet through the issuance of asset-backed securities and use of the global lending markets;
- our ability to meet the financial and other covenants contained in the agreements governing our indebtedness, or to obtain a waiver or amendment of such covenants should we be unable to meet such covenants;
- significant changes in the assumptions and estimates that are used in our impairment testing for goodwill or intangible assets, which could result in a significant impairment of our goodwill or intangible assets; and
- other business, economic, competitive, governmental, regulatory, political or technological factors affecting our operations, pricing or services.

We operate in a continuously changing business environment and new risk factors emerge from time to time. New risk factors, factors beyond our control, or changes in the impact of identified risk factors may cause actual results to differ materially from those set forth in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. Moreover, we do not assume responsibility if future results are materially different from those forecasted or anticipated. Other factors and assumptions not identified above, including those discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations," in Item 2 and "Risk Factors" in Item 1A in this quarterly report and in similarly titled sections set forth in Item 7 and in Item 1A and in other portions of our 2023 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on February 16, 2024 (the "2023 Form 10-K"), may cause actual results to differ materially from those projected in any forward-looking statements.

Although we believe that our assumptions are reasonable, any or all of our forward-looking statements may prove to be inaccurate and we can make no guarantees about our future performance. Should unknown risks or uncertainties materialize or underlying assumptions prove inaccurate, actual results could differ materially from past results and/or those anticipated, estimated or projected. We undertake no obligation to release any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)**  
**(Unless otherwise noted, all dollar amounts are in millions, except per share amounts)**

**1. Basis of Presentation**

Avis Budget Group, Inc. provides mobility solutions to businesses and consumers worldwide. The accompanying unaudited Consolidated Condensed Financial Statements include the accounts and transactions of Avis Budget Group, Inc. and its subsidiaries, as well as entities in which Avis Budget Group, Inc. directly or indirectly has a controlling financial interest (collectively, “we”, “our”, “us”, or the “Company”), and have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for interim financial reporting.

We operate the following reportable business segments:

- **Americas** - consisting primarily of (i) vehicle rental operations in North America, South America, Central America and the Caribbean, (ii) car sharing operations in certain of these markets, and (iii) licensees in the areas in which we do not operate directly.
- **International** - consisting primarily of (i) vehicle rental operations in Europe, the Middle East, Africa, Asia and Australasia, (ii) car sharing operations in certain of these markets, and (iii) licensees in the areas in which we do not operate directly.

The operating results of acquired businesses are included in the accompanying Consolidated Condensed Financial Statements from the dates of acquisition. Differences between the preliminary allocation of purchase price and the final allocation for our 2023 acquisitions of various licensees were not material. We consolidate joint venture activities when we have a controlling interest and record non-controlling interests within stockholders’ equity and the statement of comprehensive income equal to the percentage of ownership interest retained in such entities by the respective non-controlling party.

In presenting the Consolidated Condensed Financial Statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”), management makes estimates and assumptions that affect the amounts reported and related disclosures. Estimates, by their nature, are based on judgment and available information. Accordingly, actual results could differ from those estimates. In management’s opinion, the Consolidated Condensed Financial Statements contain all adjustments necessary for a fair presentation of interim results reported. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These financial statements should be read in conjunction with our 2023 Annual Report on Form 10-K (the “2023 Form 10-K”).

**Summary of Significant Accounting Policies**

Our significant accounting policies are fully described in Note 2 – Summary of Significant Accounting Policies in our 2023 Form 10-K.

*Cash and cash equivalents, Program cash and Restricted cash.* The following table provides a detail of cash and cash equivalents, program and restricted cash reported within the Consolidated Condensed Balance Sheets to the amounts shown in the Consolidated Condensed Statements of Cash Flows.

	<b>As of March 31,</b>	
	<b>2024</b>	<b>2023</b>
Cash and cash equivalents	\$ 522	\$ 548
Program cash	73	80
Restricted cash <sup>(a)</sup>	4	1
Total cash and cash equivalents, program and restricted cash	\$ 599	\$ 629

<sup>(a)</sup> Included within other current assets.

*Vehicle Programs.* We present separately the financial data of our vehicle programs. These programs are distinct from our other activities since the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

*Transaction-related costs, net.* Transaction-related costs, net are classified separately in the Consolidated Condensed Statements of Comprehensive Income. These costs are comprised of expenses primarily related to acquisition-related activities such as due diligence and other advisory costs, expenses related to the integration of the acquiree's operations with those of our operations, including the implementation of best practices and process improvements, non-cash gains and losses related to re-acquired rights, expenses related to pre-acquisition contingencies and contingent consideration related to acquisitions.

*Currency Transactions.* We record the gain or loss on foreign currency transactions on certain intercompany loans and the gain or loss on intercompany loan hedges within interest expense related to corporate debt, net.

*Variable Interest Entity ("VIE").* We review our investments to determine if they are VIEs. A VIE is an entity in which either (i) the equity investors as a group lack the power through voting or similar rights to direct the activities of such entity that most significantly impact such entity's economic performance or (ii) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support. Entities that are determined to be VIEs are consolidated if we are the primary beneficiary of the entity. The primary beneficiary possesses the power to direct the activities of the VIE that most significantly impact its economic performance and has the obligation to absorb losses or the right to receive benefits from the VIE that are significant to it. We will reconsider our original assessment of a VIE upon the occurrence of certain events such as contributions and redemptions, either by us, or third parties, or amendments to an entity's governing documents. On an ongoing basis, we reconsider whether we are deemed to be a VIE's primary beneficiary. See Note 14 – Related Party Transactions for our VIE investment in our former subsidiary.

*Investments.* As of March 31, 2024 and December 31, 2023, we had equity method investments with a carrying value of \$95 million and \$93 million, respectively, which are included in other non-current assets. Earnings from our equity method investments are included within operating expenses. For the three months ended March 31, 2024 and 2023 we recorded \$3 million and an immaterial amount related to our equity method investments, respectively. See Note 14 – Related Party Transactions for our equity method investment in our former subsidiary.

*Revenues.* Revenues are recognized under "Leases (Topic 842)," with the exception of royalty fee revenue derived from our licensees and revenue related to our customer loyalty program, which were approximately \$42 million and \$44 million during the three months ended March 31, 2024 and 2023, respectively.

The following table presents our revenues disaggregated by geography:

	<b>Three Months Ended March 31,</b>

### **Recently Issued Accounting Pronouncements**

#### *Improvements to Income Tax Disclosures*

In December 2023, the FASB issued ASU 2023-09, "Improvements to Income Tax Disclosures," which amends Topic 740 primarily through enhanced disclosures about an entity's tax risks and tax planning. The amendments are effective for public business entities in annual periods beginning after December 15, 2024, with early adoption permitted on a prospective or retrospective basis. ASU 2023-09 will become effective for us on January 1, 2025. We are currently evaluating the impact of the adoption of this accounting pronouncement on our Consolidated Financial Statements.

#### *Improvements to Reportable Segment Disclosures*

In November 2023, the FASB issued ASU 2023-07, "Improvements to Reportable Segment Disclosures," which amends Topic 280 primarily through enhanced disclosures about significant segment expenses. The amendments are effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. ASU 2023-07 became effective for us on January 1, 2024. We are currently evaluating the impact of the adoption of this accounting pronouncement on our Consolidated Condensed Financial Statements.

#### *Reference Rate Reform*

In January 2021, the FASB issued ASU 2021-01, "Reference Rate Reform (Topic 848)," which amends ASU 2020-04 and clarifies the scope and guidance of Topic 848 to allow derivatives impacted by the reference rate reform to qualify for certain optional expedients and exceptions for contract modifications and hedge accounting. The guidance is optional and is effective for a limited period of time. In December 2022, the FASB also issued ASU 2022-06, "Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848," to defer the sunset date of ASC 848 from December 31, 2022 to December 31, 2024. As of March 31, 2024, this guidance had no impact on our Consolidated Condensed Financial Statements, and we will continue to evaluate this guidance.

### **Lessee**

We have operating and finance leases for rental locations, corporate offices, vehicle rental fleet and equipment. Many of our operating leases for rental locations contain concession agreements with various airport authorities that allow us to conduct our vehicle rental operations on site. In general, concession fees for airport locations are based on a percentage of total commissionable revenue as defined by each airport authority, some of which are subject to minimum annual guaranteed amounts. Concession fees other than minimum annual guaranteed amounts are not included in the measurement of operating lease right of use ("ROU") assets and operating lease liabilities, and are recorded as variable lease expense as incurred. Our operating leases for rental locations often also require us to pay or reimburse operating expenses.

The components of lease expense are as follows:

	Three Months Ended March 31,	
	2024	2023
<b>Property leases <sup>(a)</sup></b>		
Operating lease expense	\$ 229	\$ 205

### 3. Restructuring and Other Related Charges

During the first quarter of 2024, we initiated a global restructuring plan to further right size our operations (“Global Rightsizing”). The costs associated with this initiative are primarily related to the operational scaling of processes, locations, and lines of business. We expect further restructuring expense of approximately \$35 million related to this initiative to be incurred this year.

During the second quarter of 2022, we initiated a restructuring plan to focus on consolidating our global operations by designing new processes and implementing new systems (“Cost Optimization”). We expect this initiative to be completed this year.

The following tables summarize the change to our restructuring-related liabilities and identifies the amounts recorded within our reporting segments for restructuring charges and corresponding payments and utilizations:

	<b>Americas</b>	<b>International</b>	<b>Total</b>

## 8. Income Taxes

Our effective tax rate for the three months ended March 31, 2024 was a benefit of 20.4%. Such rate differed from the Federal Statutory rate of 21.0% primarily due to the effect of certain tax credits, partially offset by foreign taxes on our International operations and state taxes.

Our effective tax rate for the three months ended March 31, 2023 was a provision of 21.4%. Such rate differed from the Federal Statutory rate of 21.0% primarily due to foreign taxes on our International operations and state taxes, partially offset by the effect of certain tax credits and the favorable adjustments related to stock-based compensation.

The Organisation for Economic Cooperation and Development (“OECD”) published a proposal for the establishment of a global minimum tax rate of 15% (the “Pillar Two rule”), effective for fiscal 2024. We are closely monitoring developments of the Pillar Two rule as the OECD continues to refine its technical guidance and member states implement tax laws and regulations based on Pillar Two proposals. Based on our preliminary analysis, we do not expect Pillar Two to have a material impact on our financial statements for 2024.

## **Debt Covenants**

The agreements under our vehicle-backed funding programs contain restrictive covenants, including restrictions on dividends paid to us by certain of our subsidiaries and restrictions on indebtedness, mergers, liens, liquidations, and sale and leaseback transactions and in some cases also require compliance with certain financial requirements. As of March 31, 2024, we are not aware of any instances of non-compliance with any of the financial or restrictive covenants contained in the debt agreements under our vehicle-backed funding programs.

## **12. Commitments and Contingencies**

### **Contingencies**

In 2006, we completed the spin-offs of our Realogy and Wyndham subsidiaries (now known as Anywhere Real Estate, Inc., and Wyndham Hotels and Resorts, Inc. and Travel + Leisure Co., respectively). We do not believe that the impact of any resolution of pre-existing contingent liabilities in connection with the spin-offs should result in a material liability to us in relation to our consolidated financial position or liquidity, as Anywhere Real Estate, Inc., Wyndham Hotels and Resorts, Inc. and Travel + Leisure Co. have agreed to assume responsibility for these liabilities.

In March 2023, the California Office of Tax Appeals (“OTA”) issued an opinion in a case involving notices of proposed assessment of California corporation franchise tax for tax year 1999 issued to us. The case involves whether (i) the notices of proposed assessment were barred by the statute of limitations; and (ii) a transaction undertaken by us in tax year 1999 constituted a tax-free reorganization under the Internal Revenue Code (“IRC”). The OTA concluded that the notices of proposed assessment were not barred by the statute of limitations and that the 1999 transaction was not a tax-free reorganization under the IRC. Anywhere Real Estate, Inc. has assumed 62.5%, and Wyndham Hotels and Resorts, Inc. and Travel + Leisure Co. have assumed 37.5% of the potential tax liability in this matter, respectively. We filed a petition for rehearing, which was denied in April 2024, and the tax assessment is expected to become payable, even if judicial relief is sought.

We are also named in litigation that is primarily related to the businesses of our former subsidiaries, including Realogy and Wyndham. We are entitled to indemnification from such entities for any liability resulting from such litigation.

In September 2014, Dawn Valli et al. v. Avis Budget Group Inc., et al. was filed in U.S. District Court for the District of New Jersey. The plaintiffs seek to represent a purported nationwide class of certain renters of vehicles from our Avis and Budget subsidiaries from September 30, 2008 through the present. The plaintiffs seek damages in connection with claims relating to alleged misrepresentations and omissions concerning charging customers for traffic infractions and related administrative fees. On October 10, 2023, plaintiffs’ motion for class certification was denied as to their proposed nationwide class and granted as to a subclass, created at the Court’s discretion, of Avis Preferred and Budget Fastbreak members. We have been named as a defendant in other purported consumer class action lawsuits, including two class actions filed against us in New Jersey, one seeking damages in connection with a breach of contract claim and another related to ancillary charges at our Payless subsidiary. However, the Company intends to vigorously defend them.

We are currently involved, and in the future may be involved, in claims and/or legal proceedings, including class actions, and governmental inquiries that are incidental to our vehicle rental and car sharing operations, including, among others, contract and licensee disputes, competition matters, employment and wage-and-hour claims, insurance and liability claims, intellectual property claims, business practice disputes and other regulatory, environmental, commercial and tax matters.

We are a defendant in a number of legal proceedings for personal injury arising from the operation of our vehicles. In June 2023, two of our subsidiaries were named as defendants in a lawsuit filed in Dallas, Texas alleging that one of our employees caused the death of an individual with one of our vehicles: Peggy Dawson Edwards, Individually and as Anticipated Representative of the Estate of Michael Edwards, Sr., et. al. v. Avis Budget Car Rental, LLC; PV Holding Corp.; and Kevin Barnes, Cause No. CC-23-03188-E, pending in County Court at Law No. 5 for Dallas County, Texas. The complaint alleges that our subsidiaries are responsible for Mr. Edwards’ death and seeks compensatory and punitive damages in an unspecified

amount exceeding \$1 million. The court has set a trial date in November 2024 for this lawsuit. Given the early stages of the legal proceedings, it is not possible to predict the outcome of the claim. However, the Company intends to vigorously defend it.

Litigation is inherently unpredictable and, although we believe that our accruals are adequate and/or that we have valid defenses in these matters, unfavorable resolutions could occur. We estimate that the potential exposure resulting from adverse outcomes of current legal proceedings in which it is reasonably possible that a loss may be incurred could, in the aggregate, be up to approximately \$40 million in excess of amounts accrued as of March 31, 2024. We do not believe that the impact should result in a material liability to us in relation to our consolidated financial condition or results of operations.

#### ***Commitments to Purchase Vehicles***

We maintain agreements with vehicle manufacturers under which we have agreed to purchase approximately \$4.1 billion of vehicles from manufacturers over the next 12 months, a \$2.7 billion decrease compared to December 31, 2023, financed primarily through the issuance of vehicle-backed debt and cash received upon the disposition of vehicles. Certain of these commitments are subject to the vehicle manufacturers satisfying their obligations under their respective repurchase and guaranteed depreciation agreements.

#### ***Concentrations***

Concentrations of credit risk as of March 31, 2024 include (i) risks related to our repurchase and guaranteed depreciation agreements with domestic and foreign car manufacturers and primarily with respect to receivables for program cars that have been disposed but for which we have not yet received payment from the manufacturers and (ii) risks related to Realogy and Wyndham, including receivables of \$38 million and \$23 million, respectively, related to certain contingent, income tax and other corporate liabilities assumed by Realogy and Wyndham in connection with their disposition.

### **13. Stockholders' Equity**

#### ***Share Repurchases***

Our Board of Directors has authorized the repurchase of up to approximately \$8.1 billion of our common stock under a plan originally approved in 2013 and subsequently expanded, most recently in February 2023 (the "Stock Repurchase Program"). During the three months ended March 31, 2024 and 2023, we did not repurchase any shares of common stock under the program. As of March 31, 2024, approximately \$802 million of authorization remained available to repurchase common stock under the program.

Common stock repurchases under the Stock Repurchase Program do not include shares withheld to satisfy employees' income tax liabilities attributable to the vesting of restricted stock unit awards.

#### ***Total Comprehensive Income (Loss)***

### *SRS Mobility Ventures, LLC*

In 2021, SRS Mobility Ventures, LLC acquired a 33 1/3% Class A Membership Interest in one of our subsidiaries at fair value of \$37.5 million. SRS Mobility Ventures, LLC is an affiliate of our largest shareholder, SRS Investment Management, LLC.

On September 1, 2022, through the issuance of Class B Preferred Voting Membership Interests, SRS Mobility Ventures, LLC increased their ownership in this subsidiary to 51% at a fair value of \$62 million. As a result, we deconsolidated our former subsidiary, Avis Mobility Ventures LLC ("AMV"), from our financial statements and began to report our proportional share of the former subsidiary's income or loss within other (income) expense, net in our Consolidated Condensed Statements of Comprehensive Income as we do not have the ability to direct the significant activities of the former subsidiary and are therefore no longer primary beneficiary of the VIE. In August and October 2023, SRS made capital contributions to AMV, increasing their ownership to approximately 65%.

In accordance with ASC Topic 810-10-40, we must deconsolidate a subsidiary as of the date we cease to have a controlling interest in that subsidiary and recognize the gain or loss in net income at that time. The fair value of our retained investment was determined utilizing a discounted cash flow methodology based on various assumptions, including projections of future cash flows, which include forecast of future revenue and EBITDA. Upon deconsolidation, our former subsidiary had a net asset carrying amount of \$49 million resulting in a gain of \$10 million.

We continue to provide vehicles, related fleet services, and certain administrative services to AMV to support their operations. For the three months ended March 31, 2024 and 2023, we recorded \$2 million and \$8 million of related income within other (income) expense, net, respectively. For the three months ended March 31, 2024 and 2023, we recorded losses of \$3 million and \$6 million within other (income) expense, net, related to our equity investment, respectively.

As of March 31, 2024 and December 31, 2023, receivables from AMV related to these services were \$10 million and \$2 million, respectively, and our net investment in vehicle finance lease with AMV, which is included in vehicles, net, was \$36 million and \$31 million, respectively. The carrying value of our equity investment in AMV as of March 31, 2024 and December 31, 2023 was approximately \$21 million and \$24 million, respectively, which is included in other non-current assets.

## 15. Stock-Based Compensation

We recorded stock-based compensation expense of \$7 million and \$8 million (\$5 million and \$6 million, net of tax) during the three months ended March 31, 2024 and 2023, respectively.

As part of our declaration and payment of a special cash dividend in December 2023, we granted additional restricted stock units ("RSUs") to our award holders with unvested shares as a dividend equivalent, which has been deferred until, and will not be paid unless, the shares of stock underlying the award vest.

The activity related to RSUs consisted of (in thousands of shares):

The weighted-average fair value of time-based RSUs and performance-based RSUs granted during the three months ended March 31, 2023 was \$208.84.

<sup>(b)</sup> The total fair value of RSUs vested during the three months ended March 31, 2024 and 2023 was \$27 million and \$17 million, respectively.

<sup>(c)</sup> Aggregate unrecognized compensation expense related to time-based RSUs and performance-based RSUs amounted to \$57 million and will be recognized over a weighted average vesting period of 1.8 years.

## 16. Financial Instruments

### *Derivative Instruments and Hedging Activities*

**Currency Risk.** We use currency exchange contracts to manage our exposure to changes in currency exchange rates associated with certain of our non-U.S.-dollar denominated receivables and forecasted royalties, forecasted earnings of non-U.S. subsidiaries and forecasted non-U.S.-dollar denominated acquisitions. We primarily hedge a portion of our current-year currency exposure to the Australian, Canadian and New Zealand dollars, the euro and the British pound sterling. The majority of forward contracts do not qualify for hedge accounting treatment. The fluctuations in the value of these forward contracts do, however, largely offset the impact of changes in the value of the underlying risk they economically hedge. Forward contracts used to hedge forecasted third-party receipts and disbursements up to 12 months are designated and do qualify as cash flow hedges. We have designated our euro-denominated notes as a hedge of our investment in euro-denominated foreign operations.

The estimated net amount of existing gains or losses we expect to reclassify from accumulated other comprehensive income (loss) to earnings for cash flow and net investment hedges over the next 12 months is not material.

**Interest Rate Risk.** We use various hedging strategies including interest rate swaps and interest rate caps to create what we deem an appropriate mix of fixed and floating rate assets and liabilities. We use interest rate swaps and interest rate caps to manage the risk related to our floating rate corporate debt and our floating rate vehicle-backed debt. We record the changes in the fair value of our cash flow hedges to other comprehensive income (loss), net of tax, and subsequently reclassify these amounts into earnings in the period during which the hedged transaction affects earnings and is presented in the same income statement line item as the earnings effect of the hedged item. We record the gains or losses related to freestanding derivatives, which are not designated as a hedge for accounting purposes, currently in earnings and are presented in the same line of the income statement expected for the hedged item. We estimate that approximately \$26 million of gain currently recorded in accumulated other comprehensive income (loss) will be recognized in earnings over the next 12 months.

**Commodity Risk.** We periodically enter into derivative commodity contracts to manage our exposure to changes in the price of fuel. These instruments were designated as freestanding derivatives and the changes in fair value are recorded in earnings and are presented in the same line of the income statement expected for the hedged item.

We held derivative instruments with absolute notional values as follows:

	<b>As of March 31, 2024</b>	
Foreign exchange contracts	\$	2,062
Interest rate caps <sup>(a)</sup>		15,835

## 17. Segment Information

Our chief operating decision-maker assesses performance and allocates resources based upon the separate financial information of our operating segments. In identifying our reportable segments, we also consider the nature of services provided by our operating segments, the geographical areas in which the segments operate and other relevant factors. We aggregate certain of our operating segments into our reportable segments.

Management evaluates the operating results of each of our reportable segments based upon revenues and "Adjusted EBITDA," which we define as income (loss) from continuing operations before non-vehicle related depreciation and amortization; any impairment charges; restructuring and other related charges; early extinguishment of debt costs; non-vehicle related interest; transaction-related costs, net; legal matters, which includes amounts recorded in excess of \$5 million related to class action lawsuits and personal injury matters; non-operational charges related to shareholder activist activity, which includes third-party advisory, legal and other professional fees; COVID-19 charges, net; cloud computing costs; other (income) expense, net; and income taxes.

We believe Adjusted EBITDA is useful as a supplemental measure in evaluating the performance of our operating businesses and in comparing our results from period to period. We also believe that Adjusted EBITDA is useful to investors because it allows them to assess our results of operations and financial condition on the same basis that management uses internally. Our presentation of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

<sup>(b)</sup> Primarily consists of gains or losses related to our equity investment in a former subsidiary, offset by fleet related and certain administrative services provided to the same former subsidiary.

Since December 31, 2023, there have been no significant changes in segment assets exclusive of assets under vehicle programs. As of March 31, 2024 and December 31, 2023, Americas' segment assets under vehicle programs were approximately \$20.2 billion and \$19.3 billion, respectively. This increase in assets under vehicle programs is directly correlated to the increase in the size and cost of our vehicle fleet.

## 18. Subsequent Events

In April 2024, our Avis Budget Rental Car Funding (AESOP) LLC subsidiary amended and restated its asset-backed variable-funding financing facilities to extend its maturity through April 2025.

In April 2024, we redeemed all of our 4.750% euro-denominated Senior Notes due January 2026 with an aggregate outstanding balance of €350 million plus accrued interest.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our Consolidated Condensed Financial Statements and accompanying Notes included in this Quarterly Report on Form 10-Q, and with our 2023 Form 10-K. Our actual results of operations may differ materially from those discussed in forward-looking statements as a result of various factors, including those discussed in "Forward-Looking Statements". See "Forward-Looking Statements" and "Risk Factors" for additional information. Unless otherwise noted, all dollar amounts in tables are in millions.

### OVERVIEW

#### ***Our Company***

We operate three of the most globally recognized brands in mobility solutions, Avis, Budget and Zipcar, together with several other brands well recognized in their respective markets. We are a leading vehicle rental operator in North America, Europe, Australasia and certain other regions we serve, with an average rental fleet of approximately 667,000 vehicles in first quarter 2024. We also license the use of our trademarks to licensees in the areas in which we do not operate directly. We and our licensees operate our brands in approximately 180 countries throughout the world.

#### ***Our Segments***

We categorize our operations into two reportable business segments: *Americas*, consisting primarily of our vehicle rental operations in North America, South America, Central America and the Caribbean, car sharing operations in certain of these markets, and licensees in certain areas in which we do not operate directly; and *International*, consisting primarily of our vehicle rental operations in Europe, the Middle East, Africa, Asia and Australasia, car sharing operations in certain of these markets, and licensees in certain areas in which we do not operate directly.

#### ***Business and Trends***

Our strategy continues to primarily focus on customer experience and costs to strengthen our Company, maximize profitability, and deliver stakeholder value. During the three months ended March 31, 2024, we generated revenues of \$2.6 billion, net loss of \$113 million and Adjusted EBITDA of \$12 million. These results were driven primarily by increased volume, offset by decreased revenue per day, increased fleet costs, and sustained inflationary pressures on costs.

We continue to be susceptible to a number of industry-specific and global macroeconomic factors that may cause our actual results of operations to differ from our historical results of operations or current expectations. The factors and trends that we currently believe are or will be most impactful to our results of operations and financial condition include the following: interest rates, inflationary impact on items such as commodity prices and wages, supply of new vehicles, used car values, and an economic downturn that may impact travel demand, all of which may be exacerbated by the ongoing military conflicts in the Middle East and Eastern Europe. We continue to monitor the potential favorable or unfavorable impacts of these and other factors on our business, operations, financial condition, and future results of operations.

## RESULTS OF OPERATIONS

We measure performance principally using the following key metrics: (i) rental days, which represent the total number of days (or portion thereof) a vehicle was rented, (ii) revenue per day, which represents revenues divided by rental days, (iii) vehicle utilization, which represents rental days divided by available rental days, with available rental days being defined as average rental fleet times the number of days in the period, and (iv) per-unit fleet costs, which represent vehicle depreciation, lease charges and gain or loss on vehicle sales, divided by average rental fleet. Our rental days, revenue per day and vehicle utilization metrics are all calculated based on the actual rental of the vehicle during a 24-hour period. We believe that this methodology provides management with the most relevant metrics in order to effectively manage the performance of the business. Our calculation may not be comparable to the calculation of similarly titled metrics by other companies. We present currency exchange rate effects to provide a method of assessing how our business performed excluding the effects of foreign currency rate fluctuations. Currency exchange rate effects are calculated by translating the current period results at the prior period average exchange rate plus any related gains and losses on currency hedges.

We assess performance and allocate resources based upon the separate financial information of our operating segments. In identifying our reportable segments, we also consider the nature of services provided by our operating segments, the geographical areas in which our segments operate and other relevant factors. Management evaluates the operating results of each of our reportable segments based upon revenues and "Adjusted EBITDA," which we define as income (loss) from continuing operations before non-vehicle related depreciation and amortization; any impairment charges; restructuring and other related charges; early extinguishment of debt costs; non-vehicle related interest; transaction-related costs, net; legal matters, which includes amounts recorded in excess of \$5 million related to class action lawsuits and personal injury matters; non-operational charges related to shareholder activist activity, which includes third-party advisory, legal and other professional fees; COVID-19 charges, net; cloud computing costs; other (income) expense, net; and income taxes.

We believe Adjusted EBITDA is useful as a supplemental measure in evaluating the performance of our operating businesses and in comparing our results from period to period. We also believe that Adjusted EBITDA is useful to investors because it allows them to assess our results of operations and financial condition on the same basis that management uses internally. Adjusted EBITDA is a non-GAAP measure and should not be considered in isolation or as a substitute for net income or other income statement data prepared in accordance with U.S. GAAP. Our presentation of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

During the three months ended March 31, 2024:

- Our revenues totaled \$2.6 billion, consistent with the similar period in 2023.
- Our net loss was \$114 million, representing a decrease of \$426 million year-over-year, primarily due to increased fleet costs and sustained inflationary pressures on costs.
- Our Adjusted EBITDA was \$12 million, representing a decrease of \$523 million year-over-year.

Revenues during the three months ended March 31, 2024 were consistent with the similar period in 2023, primarily due to a 5% increase in volume, offset by a 5% decrease in revenue per day, excluding exchange rate effects. Total expenses increased 25% during the three months ended March 31, 2024, compared to the similar period in 2023, primarily due to increased fleet costs and the impact of inflation. Our effective tax rates were a benefit of 20.4% and a provision of 21.4% for the three months ended March 31, 2024 and 2023, respectively. As a result of these items, our net income decreased by \$426 million compared to the similar period in 2023. For the three months ended March 31, 2024 and 2023, we reported earnings (loss) per diluted share of \$(3.21) and \$7.72, respectively.

Operating expenses increased to 52.7% of revenue during the three months ended March 31, 2024 compared to 51.1% during the similar period in 2023, primarily due to an increase in volume; a decrease in revenue per day, excluding exchange rate effects; and cost inflation. Vehicle depreciation and lease charges increased to 24.9% of revenue during the three months ended March 31, 2024 compared to 10.3% during the similar period in 2023, primarily due to increased per unit fleet costs, excluding exchange rate effects, which was driven by increased fleet levels and a decrease in the gain on sale of vehicles. Selling, general and administrative costs were approximately 12.7% of revenue during the three months ended March 31, 2024, consistent with the similar period in 2023, primarily due to increased marketing costs and commissions, offset by a decrease in other selling, general and administrative costs. Vehicle interest costs increased to 9.4% of revenue during the three months ended March 31, 2024 compared to 5.2% during the similar period in 2023, primarily due to rising interest rates and additional funding for vehicles.

### FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We present separately the financial data of our vehicle programs. These programs are distinct from our other activities as the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

#### FINANCIAL CONDITION

	March 31, 2024	December 31, 2023	Change
Total assets exclusive of assets under vehicle programs	\$ 9,799	\$ 9,590	\$ 209
Total liabilities exclusive of liabilities under vehicle programs	10,849	10,095	754
Assets under vehicle programs	23,729	22,979	750
Liabilities under vehicle programs	23,187	22,817	370
Total stockholders' equity	(508)	(343)	(165)

The increase in liabilities exclusive of liabilities under vehicle programs is primarily due to the increase in corporate indebtedness from the issuance of senior notes. See "Liquidity and Capital Resources," and Note 10 – Long-term Corporate Debt and Borrowing Arrangements to our Consolidated Condensed Financial Statements.

The increases in assets and liabilities under vehicle programs are primarily due to the increase in the size and cost of our vehicle fleet.

The decrease in stockholders' equity is primarily due to our comprehensive loss.

## LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are cash on hand and our ability to generate cash through operations and financing activities, as well as available funding arrangements and committed credit facilities, each of which is discussed below.

In February 2024, we issued €600 million of 7.000% euro-denominated Senior Notes due February 2029, at par, with interest payable semi-annually. In April 2024, we used net proceeds from the offering to redeem all of our outstanding 4.750% euro-denominated Senior Notes due January 2026 plus accrued interest, with the remainder being used for general corporate purposes.

During 2024, our Avis Budget Rental Car Funding (AESOP) subsidiary issued approximately \$2.4 billion of asset-backed notes with expected final payment dates ranging from April 2026 to December 2029, and a weighted average interest rate of 5.46%. In March and April 2024, AESOP amended and restated its asset-backed variable-funding financing facilities. The proceeds from these borrowings will be used to repay maturing vehicle-backed debt and the acquisition of rental cars in the United States. In February 2024, we amended our European rental fleet securitization program to increase its capacity to approximately €1.9 billion and extend its maturity to September 2026. We also added £200 million to our capacity under the program. The program is used to finance fleet purchases for certain of our European operations.

Our Board of Directors has authorized the repurchase of up to approximately \$8.1 billion of our common stock under a plan originally approved in 2013 and subsequently expanded, most recently in February 2023. Our stock repurchases may occur through open market purchases, privately negotiated transactions or trading plans pursuant to Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. The amount and timing of specific repurchases are subject to market conditions, applicable legal requirements, restricted payment capacity under our debt instruments and other factors. The repurchase program may be suspended, modified or discontinued at any time without prior notice. The repurchase program has no set expiration or termination date. During the three months ended March 31, 2024, no common stock repurchases were made under the program. As of March 31, 2024, approximately \$802 million of authorization remained available to repurchase common stock under the program.

## CASH FLOWS

The following table summarizes our cash flows:

	Three Months Ended March 31,		
	2024	2023	Change
Cash provided by (used in):			
Operating activities	\$ 589	\$ 819	\$ (230)
Investing activities	(1,518)	(1,678)	160
Financing activities	897	841	56
Effect of changes in exchange rates on cash and cash equivalents, program and restricted cash	(13)	5	(18)
Net decrease in cash and cash equivalents, program and restricted cash	(45)	(13)	(32)
Cash and cash equivalents, program and restricted cash, beginning of period	644	642	2
Cash and cash equivalents, program and restricted cash, end of period	\$ 599	\$ 629	\$ (30)

The decrease in cash provided by operating activities during the three months ended March 31, 2024 compared with the similar period in 2023 is primarily due to the decrease in our net income.

The decrease in cash used in investing activities during the three months ended March 31, 2024 compared with the similar period in 2023 is primarily due to the increase in proceeds received on disposition of vehicles.

The increase in cash provided by financing activities during the three months ended March 31, 2024 compared with the similar period in 2023 is primarily due to the increase in our net corporate borrowings, offset by the decrease in our net borrowings under vehicle programs.

## DEBT AND FINANCING ARRANGEMENTS

At March 31, 2024, we had approximately \$24.6 billion of indebtedness, including corporate indebtedness of approximately \$5.4 billion and debt under vehicle programs of approximately \$19.2 billion. For information regarding our debt and borrowing arrangements, see Notes 1, 10 and 11 to our Consolidated Condensed Financial Statements.

### LIQUIDITY RISK

Our primary liquidity needs include the procurement of rental vehicles to be used in our operations, servicing of corporate and vehicle-related debt and the payment of operating expenses. The present intention of management is to reinvest the undistributed earnings of our foreign subsidiaries indefinitely into our foreign operations. Our primary sources of funding are operating revenue, cash received upon the sale of vehicles, borrowings under our vehicle-backed borrowing arrangements and our senior revolving credit facility, and other financing activities.

Our liquidity has in the past been, and could in the future be, negatively affected by any financial market disruptions or the absence of a recovery or worsening of the United States and worldwide economies, or by continued increases in interest rates, which may result in unfavorable conditions in the mobility industry, in the asset-backed financing market and in the credit markets generally. We believe these factors have affected and could further affect the debt ratings assigned to us by credit rating agencies and the cost of our borrowings. Additionally, a worsening or prolonged downturn in the worldwide economy or a disruption in the credit markets could further impact our liquidity due to (i) decreased demand and pricing for vehicles in the used-vehicle market, (ii) increased costs associated with, and/or reduced capacity or increased collateral needs under, our financings, (iii) the adverse impact of vehicle manufacturers being unable or unwilling to honor their obligations to repurchase or guarantee the depreciation on the related program vehicles and (iv) disruption in our ability to obtain financing due to negative credit events specific to us or affecting the overall debt market.

As of March 31, 2024, we had \$522 million of available cash and cash equivalents and access to available borrowings under our revolving credit facility of approximately \$200 million, providing us with access to an approximate \$722 million of total liquidity.

Our liquidity position could also be negatively impacted if we are unable to remain in compliance with the consolidated first lien leverage ratio requirement and other covenants associated with our senior credit facilities and other borrowings. As of March 31, 2024, we were in compliance with the financial covenants governing our indebtedness. For additional information regarding our liquidity risks, see Part I, Item 1A, "Risk Factors" of our 2023 Form 10-K.

### CONTRACTUAL OBLIGATIONS

Our future contractual obligations have not changed significantly from the amounts reported within our 2023 Form 10-K with the exception of our commitment to purchase vehicles, which decreased by approximately \$2.7 billion from December 31, 2023, to approximately \$4.1 billion as of March 31, 2024 due to existing fleet levels. Changes to our obligations related to corporate indebtedness and debt under vehicle programs are presented above within the section titled "Liquidity and Capital Resources—Debt and Financing Arrangements" and also within Notes 10 and 11 to our Consolidated Condensed Financial Statements.

### CRITICAL ACCOUNTING ESTIMATES

#### *Accounting Policies*

The results of the majority of our recurring operations are recorded in our financial statements using accounting policies that are not particularly subjective, nor complex. However, in presenting our financial statements in conformity with generally accepted accounting principles (GAAP), we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions we are required to make relate to matters that are inherently uncertain as they relate to future events and/or events that are outside of our control. If there is a significant unfavorable change to current conditions, it could result in a material adverse impact to our consolidated results of operations, financial position and liquidity. We believe that the estimates and assumptions we used when preparing our financial statements were the most appropriate at that time. Presented within the section titled "Critical Accounting Estimates" of our 2023 Form 10-K are the accounting

policies (related to goodwill and other indefinite-lived intangible assets, vehicles, income taxes and public liability, property damage and other insurance liabilities) that we believe require subjective and complex judgments that could potentially affect reported results. There have been no significant changes to those accounting policies or our assessment of which accounting policies we would consider to be critical accounting policies.

### ***New Accounting Standards***

For detailed information regarding new accounting standards and their impact on our business, see Note 1 to our Consolidated Condensed Financial Statements.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to a variety of market risks, including changes in currency exchange rates, interest rates and fuel prices. We assess our market risks based on changes in interest and currency exchange rates utilizing a sensitivity analysis that measures the potential impact on earnings, fair values and cash flows based on a hypothetical 10% change (increase and decrease) in interest and foreign currency exchange rates. We used March 31, 2024 market rates to perform a sensitivity analysis separately for each of these market risk exposures. We have determined, through such analyses, that the impact of a 10% change in interest or currency exchange rates on our results of operations, balance sheet and cash flows would not be material. Additionally, we have commodity price exposure related to fluctuations in the price of unleaded fuel. We anticipate that such commodity risk will remain a market risk exposure for the foreseeable future. We determined that a 10% change in the price of unleaded fuel would not have a material impact on our earnings for the period ended March 31, 2024. For additional information regarding our long-term borrowings and financial instruments, see Notes 10, 11 and 16 to our Consolidated Condensed Financial Statements.

### **Item 4. Controls and Procedures**

- (a) *Disclosure Controls and Procedures.* Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of March 31, 2024.
- (b) *Changes in Internal Control Over Financial Reporting.* During the first quarter of 2024, there was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II – OTHER INFORMATION**

### **Item 1. Legal Proceedings**

For information regarding our legal proceedings, see Note 12 – Commitments and Contingencies to our Consolidated Condensed Financial Statements and refer to our 2023 Form 10-K.

SEC regulations require us to disclose certain information about proceedings arising under federal, state or local environmental provisions if we reasonably believe that such proceedings may result in monetary sanctions above a stated threshold. In accordance with these regulations, we use a threshold of \$1 million for purposes of determining whether disclosure of any such proceedings is required pursuant to this item.

### **Item 1A. Risk Factors**

During the three months ended March 31, 2024, we had no material developments to report with respect to our risk factors. For additional information regarding our risk factors, please refer to our 2023 Form 10-K.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

Our Board of Directors has authorized the repurchase of up to approximately \$8.1 billion of our common stock under a plan originally approved in 2013 and subsequently expanded, most recently in February 2023. Under our stock repurchase program, the Company may repurchase shares from time to time in open market transactions, and may also repurchase shares in accelerated share repurchases, tender offers, privately negotiated transactions or by other means. Repurchases may also be made under a plan pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. The timing and amount of repurchase transactions will be determined by the Company's management based on its evaluation of market conditions, the Company's share price, legal requirements, restricted payment capacity under its debt instruments and other factors. The stock repurchase program may be suspended, modified or discontinued without prior notice. During the first quarter of 2024, no common stock repurchases were made under the program. As of March 31, 2024, approximately \$802 million of authorization remained available to repurchase common stock under this program.

### **Item 5. Other Information**

During the three months ended March 31, 2024, no director or Section 16 officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

SERIES 2022-5 SUPPLEMENT, dated as of November 29, 2022 (this "Supplement"), among AVIS BUDGET RENTAL CAR FUNDING (AESOP) LLC, a special purpose limited liability company established under the laws of Delaware ("ABRCF"), THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A. (formerly known as The Bank of New York), a limited purpose national banking association with trust powers, as trustee (in such capacity, and together with its successors in trust thereunder as provided in the Base Indenture referred to below, the "Trustee"), and THE BANK OF NEW YORK MELLON TRUST COMPANY, N.A. ### **PRELIMINARY STATEMENT**

WHEREAS, Sections 2.2 and 12.1 of the Base Indenture provide, among other things, that ABRCF and the Trustee may at any time and from time to time enter into a supplement to the Base Indenture for the purpose of authorizing the issuance of one or more Series of Notes;

NOW, THEREFORE, the parties hereto agree as follows:

### **DESIGNATION**

There is hereby created a Series of Notes to be issued pursuant to the Base Indenture and this Supplement, and such Series of Notes shall be designated generally as the "Series 2022-5 Rental Car Asset Backed Notes". The Series 2022-5 Notes shall be issued in up to five Classes, the first of which shall be known as the "Class A Notes", the second of which shall be known as the "Class B Notes", the third of which shall be known as the "Class C Notes", the fourth of which shall be known as the "Class R Notes" and the fifth of which, if issued, shall be known as the "Class D Notes".

On the Series 2022-5 Closing Date, ABRCF shall issue (i) one tranche of Class A Notes, which shall be designated as the "Series 2022-5 6.12% Rental Car Asset Backed Notes, Class A", (ii) one tranche of Class B Notes, which shall be designated as the "Series 2022-5 7.09% Rental Car Asset Backed Notes, Class B", (iii) one tranche of Class C Notes, which shall be designated as the "Series 2022-5 ~~9.27~~6.24% Rental Car Asset Backed Notes, Class C" and (iv) one tranche of Class R Notes, which shall be designated the "Series 2022-5 11.162% Rental Car Asset Backed Notes, Class R".

Subsequent to the Series 2022-5 Closing Date, ABRCF may on any date during the Series 2022-5 Revolving Period offer and sell additional Series 2022-5 Notes subject to the conditions set forth in Section 5.15. Such additional Series 2022-5 Notes, if issued, shall be designated as the "Series 2022-5 Rental Car Asset Backed Notes, Class D" and shall be referred to herein as the "Class D Notes".

The Class A Notes, Class B Notes, Class C Notes, Class D Notes, if issued, and Class R Notes collectively, constitute the Series 2022-5 Notes. The Class B Notes shall be

an amount equal to the product of (A) one-twelfth of the Class B Note Rate and (B) the Class B Invested Amount on the first day of such Series 2022-5 Interest Period, after giving effect to any principal payments made on such date.

"Class B Note" means any one of the Series 2022-5 7.09% Rental Car Asset Backed Notes, Class B, executed by ABRCF and authenticated by or on behalf of the Trustee, substantially in the form of Exhibit B-1, Exhibit B-2 or Exhibit B-3. Definitive Class B Notes shall have such insertions and deletions as are necessary to give effect to the provisions of Section 2.18 of the Base Indenture.

"Class B Note Rate" means 7.09% per annum.

"Class B Noteholder" means the Person in whose name a Class B Note is registered in the Note Register.

"Class B Shortfall" has the meaning set forth in Section 2.3(g)(ii).

"Class C Carryover Controlled Amortization Amount" means, with respect to any Related Month during the Series 2022-5 Controlled Amortization Period, the amount, if any, by which the portion of the Monthly Total Principal Allocation paid to the Class C Noteholders pursuant to Section 2.5(e)(iii) for the previous Related Month was less than the Class C Controlled Distribution Amount for the previous Related Month; provided, however, that for the first Related Month in the Series 2022-5 Controlled Amortization Period, the Class C Carryover Controlled Amortization Amount shall be zero.

"Class C Controlled Amortization Amount" means, (i) with respect to any Related Month during the Series 2022-5 Controlled Amortization Period other than the Related Month immediately preceding the Series 2022-5 Expected Final Distribution Date, \$8,755,833.33 and (ii) with respect to the Related Month immediately preceding the Series 2022-5 Expected Final Distribution Date, \$8,755,833.35.
